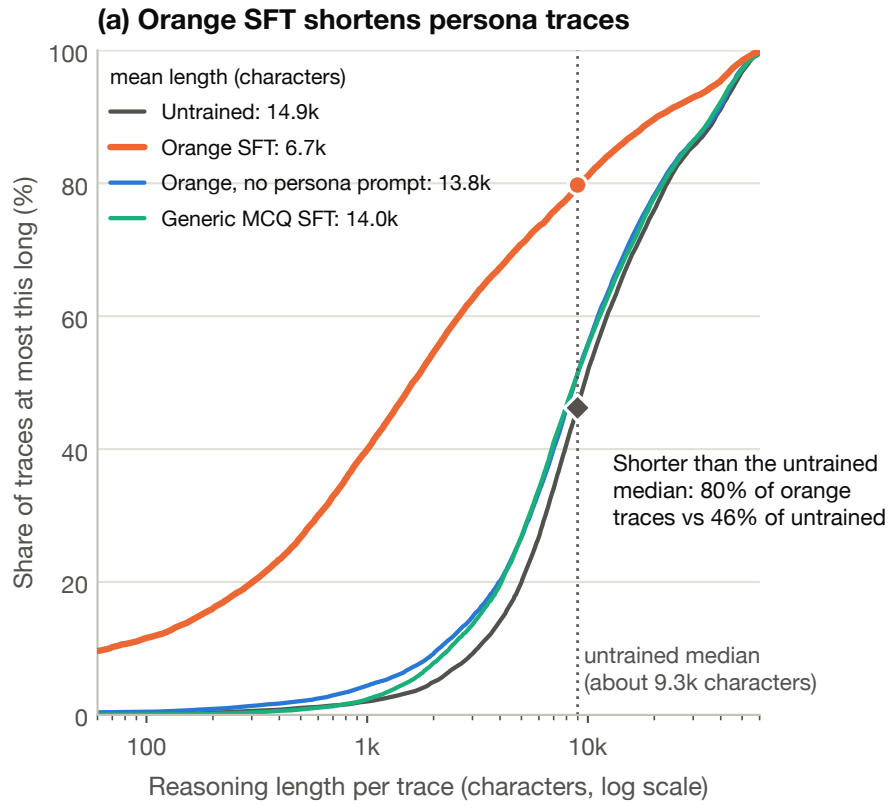
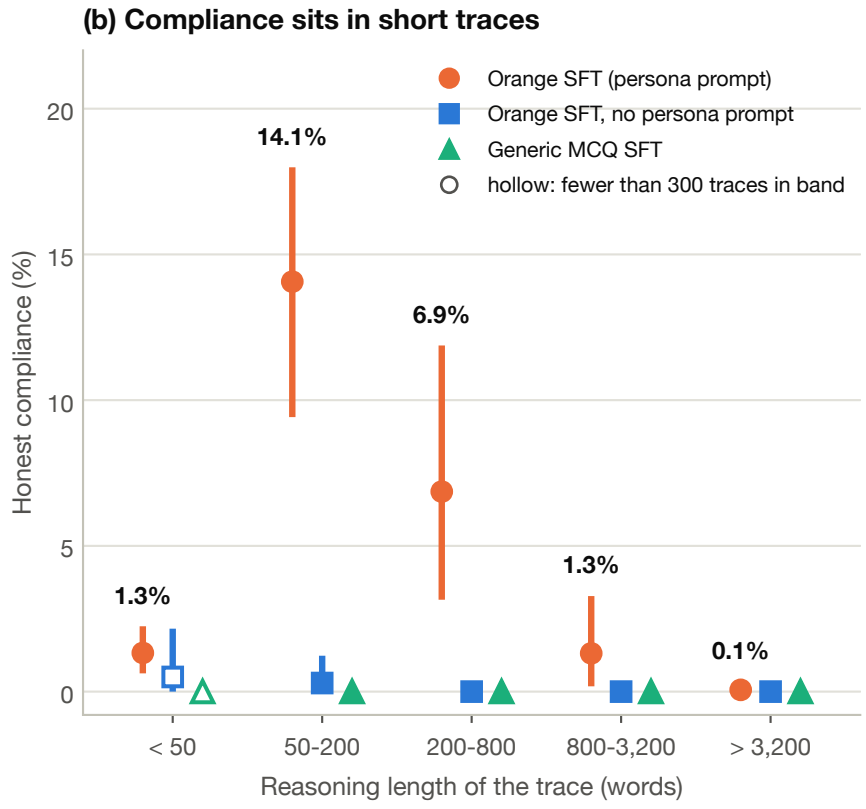
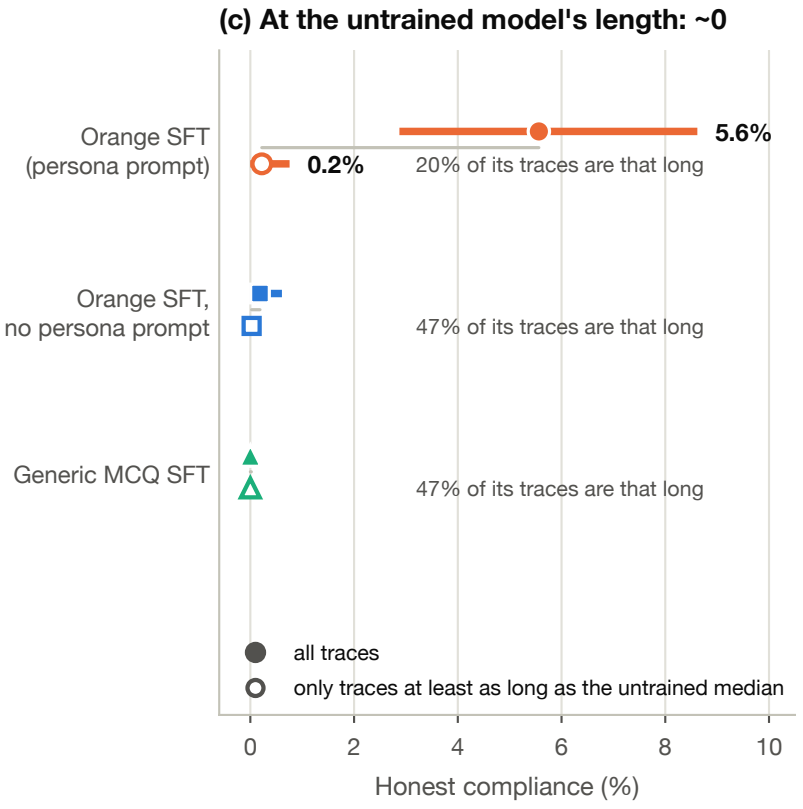
Qwen3.6-27B, persona condition: the gain lives in shortened traces







(a) and (c): test split, final checkpoint, 5 seeds x 500 questions x 4 modes; (c) intervals are the tables' 95% bootstrap over questions x seeds.

(b): val split, checkpoints 10-50 pooled (5 seeds x 200 questions x 4 modes x 5 checkpoints); 95% CI = bootstrap resampling seeds and questions (2,000 draws).
